
SHOT SHOW

2019 SSAA Shot Show - Exhibition Showgrounds

October this year, TRV setup our portable “come and Try” Air Rifle Range as part of this years shot show..

Bay 1 had one of our Electronic Meyton target machines, and bay 2 had our new 5 aiming mark ISSF knock down Sprint target. We used two of the new TRV FWB Air rifles and Air support stands that we have for our after school junior program which we are running at MISC.

Over the course of the two days, (Saturday,Sunday) we managed to put through close to 500 people, all who seemed to enjoy the experience. A number of people took the new TRV brochures for follow up with a local club. (Hopefully). I know MISC has had a number of people turn up over the last 2 weeks as a result of the show. Be interesting to hear from any other clubs that have received visitors recently also as a result of the show, as that is our best way of knowing if the show was a success and if we should do the shot show again next year.

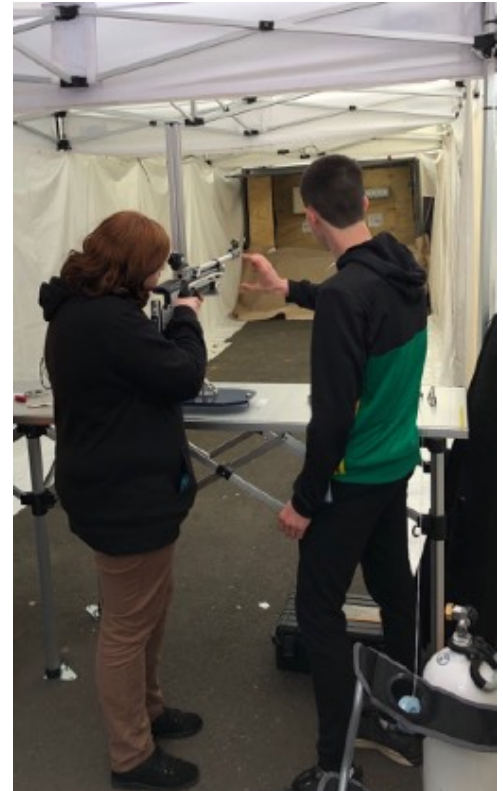

The Air Range was modified for the event with the addition of a new set of internal vinyl walls for extra safety. On the outside we installed a series of temporary fence panels and then attached a new set of large core-flute pictures which looked totally awesome. (Thats me reverting to my younger self) Neil Davis took the pics and organised the panels, great job Neil.

If you look at the pictures you probably will recognise some of our TRV members. (including the editor!!)

Some grey haired old bloke looking a bit lost?

Michael Davis instructing in the use of the sprint knock down targets.

Clubs can utilise the TRV come and try air range as we have a State wide license for its use, So if you want to promote your club at a local show give the secretary a call.

Thanks need to go to the people who put in their time over the weekend, we had 11 people spread over the two days pop in to help which was fantastic, It couldn't of been done without them! Most of them looked quite professional with new blue TRV shirts on display, *but there is always one!*

One person was noted going back to his car on numerous occasions, each time with a number of bags of goodies purchased at the show, name with-held to protect the guilty, but he is related to the editor

Someone was noted to be a tad cranky before he had his morning coffee, Mike!!

And someone spent a lot of time talking and talking and talking, but he said he was drumming up business for the Air Range, Who would that of been??

Someone else turned up with a filler unit for the Air cylinders - that was wrong, - might off been me again! Lucky Neil only lives 5 minutes away!!

The hiccups we had were all minor and easily rectified, so all in all it went quite smoothly.

The bonus bits-

The new fence panels and core-flute panels we can obviously reuse whenever we set up the portable air range, but they also will get used for Target Sprint, a new event TRV are going to promote shortly.

The gazebos that make up the portable air range get used for the Air range, as protection for the Meytons when we use them at 50metres (outdoors) and will now also be used as competitor protection from the weather when we get target sprint up and running.

So a lot of the new TRV equipment has been designed and purchased to allow for a multipurpose. And the really good bit is that approximately 66% of the cost was covered by various SRV grants that TRV has been fortunate to receive over the last 5 years.

Shepparton Annual Prize Meeting

Shepparton Smallbore and Air Rifle Club held its 39th Annual Prize meeting on the last weekend in August. It was a nice change to see blue skies and a rain free weekend. With nearly 150 entries across 9 events it was quite the busy weekend. The range was looking fantastic and had a full 22bays of electronic targets. We would like to thank TRV for the use of the Meytons and their ongoing commitment to making these available to clubs around the state.

Saturday saw the Master Marksman and Bench Master events along with Air Supported and Air Standing. James Daly took out the Prone event with a score of 618, just in front of Chris Lott. Chris Preston and Dean Romanoff both had great scores of 629 in the 50m Bench, with Chris Preston taking the victory by a few tenths of a point, incidentally both shot the elusive 600 raw score! Val McCready won the Air Supported with 620.5 and Michael Davis won Air Standing with a 627.2.

Sunday held a number of events including 50m RBA, 20m Bench, 20m Air Bench, 50m Class 1 and 50m 3-Position. These were all shot on electronic targets so it was something new for everyone.

Handicap winners were Darcie George for 20m Benchrest, Dennis Peacock in 20m Air Bench, Kenneth Wilson for 50m Class 1 Benchrest, Janey Preston won 50m RBA Bench and Elise Collier won the 3x40 event. Special mention to Darcie George from Target Rifle Traralgon for winning the 20m Benchrest in only her second prize meeting.

I would like to thank all the people who travelled and attended our prize meeting. A huge thank you to all the Shepparton members and people who helped out behind the scenes. Without these people events like this wouldn't be possible. We hope to see everyone next year and happy shooting.

Target Rifle Victoria Inc

2020 President’s 1200 10m Air Rifle & Air Rifle Supported Postal

(12 x 10 shot 10m Air Rifle StripTargets or 120 shots on Electronic 10m Air Rifle Targets)

Message from the President - 2019 50m Pennant

27 January 2020

to ,

In November TRV council, at the request of a number of clubs, called a vote on the 2019 fifty metre prone pennant. All clubs that had entered the competition were asked to vote on one of three options to finalise the pennant.

The options

1. That the annulment stands due to the levels of errors over the period of the competition.
2. Revised results done by the judging convenor are accepted as these reflect results by clubs and individuals that have adhered to the full rules of the competition. (the judging convenors report is attached for your consideration)
3. Let all scores be included with or without the printed name of the witness on the card. Note that this will only be for this competition as all clubs are now abiding by the rule of witness name. (clubs feel that communication was poor around the competitions policy)

The clubs overwhelmingly voted in favour of option 3.

After the vote was finalised all targets were again reviewed by the judging convenor and individual and team scores updated.

As this scenario was not envisaged when the database was created there was a substantial effort by Neil Davis and Chris Lott to allow amendment to the published results.

I wish to personally thank Dennis, Chris and Neil for the work that was undertaken in finalising this event.

The finalised results are now on the website.

I wish everyone good shooting in the 2020 50m prone pennant that is about to begin.

Yours Sincerely

A handwritten signature in blue ink, appearing to read "John Hopkins", is written over the typed name.
